

PORTFOLIO · 2026

Selected Work

We shape the strategy. Then we build it.

CONSULT + BUILD

We shape the strategy. Then we build it.

Prisma House is a marketing consultancy with two connected halves. The first works out where your growth actually comes from — brand, demand, content, media pitching and the honest audit — and holds every recommendation to a commercial number, not a vanity metric.

The second builds the digital infrastructure that runs it: the website that sells and the systems that keep the business moving, designed and looked after by the same team that set the direction. Because advice that never ships is just opinion, we build what we recommend.

The projects that follow list real features taken from each codebase and show real screens. No invented numbers, no borrowed testimonials.

BUILT FOR XRAISED

WEBSITES

Xraised

A media platform, a client portal and a content factory — behind one website.

Xraised is a sister brand in our group: an interview and press platform for founders and executives. The site had to do three jobs at once — sell a catalogue of editorial services, give clients a place to follow their work, and run the production behind it without a large team.

Public website

- Interview video library with industry categories, likes, comments and a watchlist
- Six service pages, a price list and Stripe checkout in GBP and USD

Xraised Magazine

- Paid application with photo, written answers and consent, paid via Stripe or on account
- AI research with cited sources, drafting with fact checks against those sources, automated photo cut-out and page rendering

Lead-generation assessment tools

- Interviewability Score, Online PR Presence Score, AI Visibility Check and Thought Leadership Score
- Eight questions each, scored on the server, with the specific gaps to close first

Client portal

- Stage tracking, approve or request changes, comments and proposed edits
- Downloads: slides, ZIP packages, reel videos and distribution reports

BUILT FOR XRAISED

SYSTEMS & PRODUCTS

Internal system — not publicly accessible

Xraised CRM

One place for inbox, follow-ups, pipeline, PR campaigns and invoices.

The Xraised team ran sales and client communication across shared mailboxes, cold-outreach tooling, a generic CRM and spreadsheets. Replies were missed, follow-ups depended on memory, and nobody had one view of a client from first email to paid invoice.

Inbox and conversations

- Shared inbox with sent, drafts, archived and spam views; flag, pin, bulk actions, search and attachments
- One conversation per thread across mailboxes; Cmd+K search; shared quick-text templates

Cold outreach

- Separate cold section reading replies from outreach mailboxes
- CSV import of mailboxes with connection checks; tenant consent checklist

Follow-ups, tasks and approvals

- Follow-up engine that drafts the next nudge and waits for a human to approve and send
- Internal tasks with urgency and deadlines; optional mirror to Microsoft To Do

Contacts, deals and pipeline

- Contacts with CSV/XLSX import, preview, duplicate detection and per-import undo
- "Contacts to review" merge-or-keep workflow

Stack Next.js · React · TypeScript · Tailwind CSS · PostgreSQL · TanStack Query · Recharts · Railway

Built on an existing in-house CRM codebase and heavily tailored for Xraised. Screens shown with fictional demo data.

BUILT FOR BOOKSPERT

WEBSITES

Bookspert

A six-language publishing website with an author dashboard and a sales back office.

Bookspert is the book-publishing brand in our group. It needed a site that could explain a considered, high-ticket service to leaders in several languages, capture consultations reliably, and give both authors and the sales team somewhere to work after the sale.

Public site

- Six languages chosen from a cookie or the browser, with a currency switcher
- Services hub and four service detail pages; how-it-works; success stories

Admin

- Overview stats and recent leads; lead statuses with CSV export
- Users and roles (author, editor, customer, admin); books; blog editor

Author dashboard

- Books, payments and royalties, invoices with PDF download
- Billing with Stripe payments and invoices, pay-now links and receipts

Stack Next.js · React · TypeScript · Tailwind CSS · Supabase · PostgreSQL · Vercel

HOW IT WORKS

A clear, five-step path with a single person responsible for your book at every stage. You stay in control; we do the heavy lifting.

Start your book

01 Discovery call

02 Your dedicated writer

03 Writing & proofreading

04 Cover & publishing

05 Launch & promotion

Scribe Media popularised done-for-you publishing: you talk through your ideas, and a professional team of writers, editors and designers turns them into a book carrying your name. It remains the best-known brand in the category, with packages reported from \$29,000 to \$135,000+ and typical timelines of 6–15 months.

If you love the model but the budget is a different conversation, Bookspert delivers the same outcome — written with you, published under your name, promoted to a real audience — from \$1,900, in weeks. Here's a fair side-by-side.

	SCRIBE MEDIA	BOOKSPERT
Price	\$29,000 – \$135,000+ (reported 2026 packages)	\$1,900 / \$2,900 / \$4,900 — flat tiers
Timeline	6 – 15 months	From idea to a published book in weeks
Writing	Interview-based ghostwriting	Dedicated native-English writer, interview-based, unlimited proofreading
Publishing	Full-service publishing	Cover, interior, eBook + Amazon publication under your name
Promotion	Marketing support on higher tiers	PR across 300+ outlets, 90K-reader newsletter, influencer network, online-TV interview (tiered)
Payment structure	Package pricing	10% pilot month, then 30% in months 2, 3 and 4
Track record	2,000+ authors served, 23 NYT/WSJ bestsellers	14 published books for founders and executives; division of Kraised (300+ media outlets)

When Scribe makes sense

If you want the category's most recognised brand, a 6-15 month white-glove process and budget genuinely isn't a constraint, Scribe is a strong premium choice with a long bestseller track record.

When Bookspert makes more sense

If what you're after is the business outcome of a book — authority, inbound leads, speaking invitations — on a faster timeline and a lighter budget, Bookspert's lean model plus the Xraised media engine gets you published and seen for a fraction of the cost.

OUR OWN PRODUCT

SYSTEMS & PRODUCTS

Launching soon

Visibility Intelligence

A free AI audit of how a leader reads from the outside — and the work that closes the gaps.

Most accomplished leaders are under-described online: the record is real, but it is scattered, dated or inconsistent. We wanted a product that measures that honestly, explains it plainly, and connects each gap to the work that would close it.

Free AI visibility audit

- Form for name, email, optional phone and the public links to read; rate-limited per IP and email
- Engine runs web searches and returns a strict structured report; one automatic retry on parse errors

Services marketplace

- Public five-stage path and a private catalogue with deliverables and timelines
- "Recommended for you" on the dashboard; request modal with internal notification

Report and progress

- Radial score card, summary, gaps / urgent / points-to-gain strip and comparison with the previous audit
- Charts for where the missing points sit and what closing each gap is worth

Plans, billing and accounts

- Base and Pro plans; Stripe Checkout with automatic tax, customer portal and webhook
- Entitlement gating with a grace period and a billing on/off switch

Stack Next.js · React · TypeScript · Tailwind CSS · PostgreSQL · Railway

Report shown is the product's own illustrative example with an invented person and company.

Run your free audit

See how you read from the outside

The audit looks at your public presence the way an investor or a journalist would, scores how clearly your authority comes across, and names what is holding the number down. It takes minutes and costs nothing.

Enter a few details to begin. The first step takes a minute.

01 Who we are reading

Name

Jane Example

Email

jane@example.com

Password

At least 8 characters.

Phone

Any format is fine

Optional

Only if you would rather we could call. The audit works exactly the same without it.

02 Where to look

Run your free audit

By starting your audit, you agree to our [Terms](#) and [Privacy Policy](#).

What you will learn

One report, written to be read once and understood.

- How you come across:

The free audit form, filled with fictional example details

← Back to insights

Illustrative example

Idris Kellaway

Co-founder and CEO, Fieldloft

A climate data founder preparing a Series A, less visible online than his own company.

The person and the company are invented for this example. The numbers follow the same arithmetic as a real audit: closing a gap adds exactly the points the report assigned to it.

Where they started

Fieldloft collects and verifies emissions data for mid-sized manufacturers. It closed a seed round the year before and planned to raise a Series A within twelve months.

The investors he was meeting all did the same thing before the first call: they searched his name. What they found first was someone else. Once they reached the right person, the only material was a short team-page bio and two articles about the round that quoted the press release.

The audit put him at 44. Five gaps, two of them urgent, and both urgent ones about the same problem: the record did not say who he was.

What we did

01 Website & Digital Presence

Months 1 to 2

A personal site built around his research background and the problem Fieldloft works on, with one bio written once and reused on every profile. It gave search engines an authoritative page for the name, which moved it above the namesake.

Gaps closed

+15 A namesake surfaces first

+13 No page of his own

Score 44 to 72

02 Feature Interviews

Months 2 to 4

Two features in climate and data publications, each built on one argument he makes about how emissions data is collected and checked. Both are editorial
