Selected Work

We shape the strategy. Then we build it.

CONSULT + BUILD

We shape the strategy. Then we build it.

Prisma House is a marketing consultancy with two connected halves. The first works out where your growth actually comes from – brand, demand, content, media pitching and the honest audit – and holds every recommendation to a commercial number, not a vanity metric.

The second builds the digital infrastructure that runs it: the website that sells and the systems that keep the business moving, designed and looked after by the same team that set the direction. Because advice that never ships is just opinion, we build what we recommend.

The projects that follow show real screens at their real scale, cropped to the part that matters. No invented numbers, no borrowed testimonials.

WHAT WE DO

Everything between your expertise and a finished book.

Writing a book is hard, slow and easy to abandon. We remove every step that stops busy leaders from finishing — and do it for you.

We write it

You're matched with a dedicated, native-English writer from our team of ghostwriters. A simple questionnaire and a few conversations are all it takes — they handle the manuscript, with unlimited proofreading until it's right.

We design it

A custom cover, interior layout and eBook formatting, crafted to sit comfortably next to the best books in your category — and to look the part on every screen and shelf.

Most studios measure a good year by how much they grew. Elena Marlowe, founder of Northgate Studio, measures it by how many clients came back.

Growth that holds

"We turned down a third of the work we were offered last year," Marlowe says. "Every project we did take was one we could staff properly, and every one of those clients has briefed us again."

The studio, which designs interiors for independent hotels, has grown by a steady handful of people

Investors, journalists and clients decide what to think of you from whatever they can find, usually before the first conversation. 01 | Website & Digital Presence

Oliver's Owned presence

For most leaders the personal website is an afterthought: an outdated bio, a stale headshot, a domain that no longer reflects the person. Yet it is the one place you fully control, and often the first result anyone finds.

We treat it as the anchor of your presence. We shape the narrative, write the copy, and design a site that feels considered rather than loud. Every choice serves one aim: making your authority obvious within seconds.

You receive a finished, launched site that reads as an extension of you, ready to grow as your work does.

What it includes

- Narrative and copy built around your positioning
- Considered, restrained visual design
- Built, launched and ready to maintain

Dr Kgomotso S. Tshaka Debuts The Orchard Effect

A Transformative Framework for Turning Resilience into Lasting Impact

London, United Kingdom, October 5, 2026 -- **The Orchard Effect:** Dr Kgomotso S. Tshaka on Building Resilience That Lasts - Calling Leaders to Move Beyond Quick Fixes and Build Generational Impact

Popular ideas of resilience often focus on bouncing back: getting through the crisis and moving on. In her new book, *The Orchard Effect: Impact Is Not Accidental* (Bookspert), sustainability governance strategist and mining executive Dr Kgomotso S. Tshaka argues for something deeper: building foundations that outlast the crisis, and the leader.

Drawing on more than twenty-five years in the global extractive industry, doctoral research on board governance, and pivotal personal turning points, Dr Tshaka offers a memoir and leadership framework built on one image. Rather than making lemonade from lemons, she invites readers to gather the seeds of their adversity and grow an orchard.

The framework moves through five stages: Soil Preparation, Roots, Watering, Pruning and Harvest. Each shows how internal foundations, including reflection, clear boundaries and honest self-assessment, come before meaningful public impact.

Along the way, Dr Tshaka draws on her experience as a Black woman in male-dominated boardrooms, where she often had to prove her competence again and again. That experience shaped a leadership philosophy built on deep listening, strategic thinking and real value rather than volume or title. She also makes
