Selected Work

We shape the strategy. Then we build it.

CONSULT + BUILD

We shape the strategy. Then we build it.

Prisma House is a marketing consultancy with two connected halves. The first works out where your growth actually comes from – brand, demand, content, media pitching and the honest audit – and holds every recommendation to a commercial number, not a vanity metric.

The second builds the digital infrastructure that runs it: the website that sells and the systems that keep the business moving, designed and looked after by the same team that set the direction. Because advice that never ships is just opinion, we build what we recommend.

The projects that follow show real screens at their real scale, cropped to the part that matters. No invented numbers, no borrowed testimonials.

WHAT WE DO

Everything between your expertise and a finished book.

Writing a book is hard, slow and easy to abandon. We remove every step that stops busy leaders from finishing — and do it for you.

We write it

You're matched with a dedicated, native-English writer from our team of ghostwriters. A simple questionnaire and a few conversations are all it takes — they handle the manuscript, with unlimited proofreading until it's right.

We design it

A custom cover, interior layout and eBook formatting, crafted to sit comfortably next to the best books in your category — and to look the part on every screen and shelf.

WEBSITE

Publishing site & book store

A six-language publishing website with an author dashboard and a sales back office.

A high-ticket publishing service had to be explained to leaders in six languages, capture consultations reliably and give authors and the sales team a place to work after the sale.

Xraised Magazine

A paid application that turns a founder's answers and photo into an eight-page issue, with AI-assisted research, automated layout and a human approval step.

WHAT WE DO

Two ways to work with xraised

Interviews and press coverage are curated — some guests are invited directly by our editorial team, others apply and are selected. Everything else — SEO, AI visibility, social content, book publishing — is a direct service you can simply engage.

Curated

FLAGSHIP · CURATED

Video Interviews

We interview selected founders and leaders — not everyone who asks. Some guests are invited by our scouting team; others apply. Either way, an editorial board chose your story out of many.

PRESS · CURATED

Press Releases & Articles

Editorial coverage, not paid noise: we accept selected stories, write them to publication standard and place them across our media network.

The example on the next page: CRM & back office.

SYSTEM

CRM & back office

One place for inbox, follow-ups, pipeline, PR campaigns and invoices.

Sales and client email lived across shared mailboxes, a generic CRM and spreadsheets; nobody had one view of a client from first reply to paid invoice.

Shared inbox

Follow-up engine

Deal pipeline

PR campaigns

Invoices

Built with Next.js · React · TypeScript · Tailwind CSS · PostgreSQL · TanStack Query · Recharts · Railway

A pipeline the team can read at a glance

Deals move through named stages on a board or in a list. Each card carries the contact, the product and who owns it; a won deal becomes a production task.

Follow-ups that wait for a human

The engine notices when the client has not written back, drafts the next nudge and queues it for approval. Nothing is sent on its own.

PR campaigns, pitch by pitch

One campaign per client with the journalists to reach, the status of every pitch, the dates and the published link when a story lands.

Built on an existing in-house CRM codebase and heavily tailored for Xraised. Every screen is shown with fictional demo data: the people, companies, outlets and amounts are invented.

Multi-channel

The example on the next page: Interview publishing system.

SYSTEM

Interview publishing system

One editorial system from a recorded interview to a page, a calendar and social posts.

Hundreds of interviews a year had to become pages, articles and social posts on a schedule, with a small team and no copy-paste between tools.

Interview CMS

Content calendar

Editor with approval

Social slides

Built with Python · FastAPI · Jinja2 · PostgreSQL · SQLAlchemy · Playwright · ffmpeg · Railway

A page for every interview, generated

The CMS holds the video, the guest, the cover and the article; publishing builds the public page, the category listings and the feeds.

A publication calendar per client

A rolling three-month plan per client and placement, with topics proposed by the engine and a status for every entry.

An editor built around approval

Title, summary and body are edited in place; the piece moves from draft to ready to published, and the client can approve or request changes.

Screens shown with fictional demo data: clients, guests and topics are invented.

The market reads you before it meets you

Investors, journalists and clients decide what to think of you from whatever they can find, usually before the first conversation. Visibility Intelligence measures how that reading turns out, names the gaps behind the number, and connects each one to the work that closes it. The audit is free and takes minutes.

SAAS

SaaS: AI audit with subscriptions

A free AI audit of how a leader reads from the outside — and the work that closes the gaps.

Accomplished leaders are under-described online, and nothing measured that honestly or connected each gap to the work that would close it.

01 | Website & Digital Presence

Closes Owned presence

For most leaders the personal website is an afterthought: an outdated bio, a stale headshot, a domain that no longer reflects the person. Yet it is the one place you fully control, and often the first result anyone finds.

We treat it as the anchor of your presence. We shape the narrative, write the copy, and design a site that feels considered rather than loud. Every choice serves one aim: making your authority obvious within seconds.

You receive a finished, launched site that reads as an extension of you, ready to grow as your work does.

What it includes

- Narrative and copy built around your positioning
- Considered, restrained visual design
- Built, launched and ready to maintain

What it typically moves

A marketplace of services behind each gap

Every finding is matched to the work that closes it, in five stages from website to book, each with its deliverables and timeline.

The audit looks at your public presence the way an investor or a journalist would, scores how clearly your authority comes across, and names what is holding the number down. It takes minutes and costs nothing.

Enter a few details to begin. The first step takes a minute.

02 Where to look

Where you appear online
Paste the public links where people find you. Include your public LinkedIn profile URL, your website, and any article or interview. One per line.

Only if you would rather we could call. The audit works exactly the same without it.

Run your free audit

The free audit, in one form

Name, email, a password and the public links to read. The engine does the rest with web search and returns a structured report.

The report preview and the case studies are the product's own illustrative examples with invented people and companies.

AI AGENTS

Editorial agents
